Shimfessel & Waldron.

The home-grown, hand spanked, bare-footed, hard-fisted country boy makes a much better fight in life than the pampered, high-collared, creased trousered youth of our cities, whose clothes have always been dusted with a whisk broom instead of a nice shingle.

Let the town man out of a job try a year on the farm. Plowing behind a mule will take the link out of the top-knot, the frog out of his throat, the gas off his stomach, the weakness out of his legs the corns off his toes, and will give him an appetite, an honest living and a little sight of heaven.

Common Clay For Fuel.

The American Clay-Working Machine Company of Bucyrus, O., has been applied to for machinery to manufacture of an artificial fuel that will sell cheaper than coal. It is made from ordinary clay treated with chemicals, and is the invention of an old railroad engineer of Omaha, Neb., named Hofman. The fuel can be used in a stove, grate, or furnace and burns to white ashes, 25 pounds of the fuel producing only a quantity of ashes may be held in the palm of hand. In the combustion the fire literally consumes its own ashes and a ton of the fuel goes further, it is said, than two tons of the very best coal, producing five times as much heat than coal produces. Two Western railroads are said to be testing the new fuel for use on their engines.

Wheat is Safe.

The rain which fell last week broke one of the longest drouths in the history of this and surrounding counties. It had not rained since Christmas day. Mr. H. F. Hillenmeyer, who is auth-

ority on all such questions, said that it was the longest period in his memory, and he has been keeping a record for the past quarter of a century. Mr. Hillenmeyer when asked the condition of wheat said:

"This promises to be the banner year in wheat. Press report say that wheat is killed, but such is not the case in this region. The leaves that are just coming out of the ground are seared by frost, but are uninjured. The plant has not grown any in the past month on account of a lack of rain, the frost and the wind. A general survey of the wheat field, however, would indicate that the plant is dead.

"The same condition prevailed last year and the wheat was not injured. I don't think it will likely be injured from now forward. If it should turn very cold, snows will likely protect it, and on the whole I think the wheat prospects in this section for this year are brighter than usual.

J. E. Burgher Sr. Dead.

J. E. Burgher died at his home Thursday morning, Jan. 30, after a weeks illness aged 75 years. Burial Sunday at Salem Church yard beside his wife who died last April. Deceased had lived a consistent member of the Baptist church for a number of years. He leaves two children, fourteen grand-children and eighteen great-grand-children.

Up to Jun. 1899, there had never been a death in his family. Since then, six members have died—a daughter, Mrs. Callie McKinney; a daughter-in-law, Mrs. B. S. Burgher; a grand-son, Bluford Fox; a great-grand-child, little Blanche Heflin; his wife and then the head of the family.

There are three bills pending before the Legislature, each of which is of vast interest to farmers. One of the bills is called the Dog Law, another the Stock Law, an act to prevent stock from running at large upon the public highways, and third the Paris Green Law, designed to prevent the use of this deadly poison on tobacco and garden truck. The Dog Law will impose a tax on all dogs, whether of any real value or not. The tax to go to pay for all sheep killed by dogs. This is a law we hope to see in force as we believe it will be of benefit to all parties. It not only insures pay for sheep killed by dogs, but it makes all dogs of value and no other person will then have any more right to kill a tax-paid dog, when seen on their premises, than they would a horse or a cow that had strayed in. We oppose the stock law. While it would be good for the bluegrass counties, it would entail hardships upon many of the farmers of the mountain counties and poor people everywhere, who own a plug horse or scrub cow, and depend upon the grass on the highway for pasture. We strongly favor the Paris green bill from the fact that the use of Paris green on the growing crops of tobacco is, no doubt, of great injury to users of tobacco in general, besides it will greatly reduce the production, thereby enhancing the value of what is raised.

Raising a crop of boys is like raising a crop of corn. Unless they have the proper amount of sunshine and good advice their yield will be nubbins. They should be taught from childhood to be obedient to duty, to be respectful and know that success is the reward of honest industry. If we read the lives of our great men we find that they climbed the towers of fame only by intrepid efforts. In youth they did not stand idle while their neighbors labored in the vineyard. Above and beyond the vulgar and idle things of life they saw the laurels and reached forth and plucked them.—Exchange.

Log Thief Captured.

Mr. W. Z. Eubank, detective for the aggregation of lumber mills on the Kentucky river and its tributaries, was in Jackson this week on business. He had been to Hazard looking after cases against log thieves. He informed us that Beverly Clark, the notorious timber thief, who escaped custody several weeks ago, had been captured by Jailer Eversole. Clark was arraigned at the last term of the Perry Circuit Court for stealing logs from one of the companies represented by detective Eubank, and in default of bond was remanded in jail. He escaped jail a short time afterward and fled to Clay county, where he was captured on Bulls Skin Creek, dressed in women's clothes. Clark has four living wives and has never been divorced from either of them. Detective Eubank is making it very interesting just now for the log thief contingent.—Jackson Hustler.

ALL CASES OF DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, SAYS:

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion. About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely. I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever. I then saw your advertisement accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain Very truly yours, F. A. WERMAN, 739 S. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation. Examination and advice free. YOU CAN CURE YOURSELF AT HOME at a nominal cost. INTERNATIONAL AURAL CLINIC, 596 LA SALLE AVE., CHICAGO, ILL.

You cannot afford to disregard the warnings of a weak and diseased heart and put off taking the prescription of the world's greatest authority on heart and nervous disorders—

Dr. Miles' Heart Cure.

If your heart palpitates, flutters, or you are short of breath, have smothering spells, pain in left side, shoulder or arm, you have heart trouble and are liable to drop dead any moment.

Major J. W. Woodcock, one of the best known oil operators in the country dropped dead from heart disease recently, at his home in Portland, Ind., while mowing his lawn.—The Press.

Mrs. M. A. Birdsell, Watkins, N. Y., whose portrait heads this advertisement, says: "I write this through gratitude for benefits I received from Dr. Miles' Heart Cure. I had palpitation of the heart, severe pains under the left shoulder, and my general health was miserable. A few bottles of Dr. Miles' Heart Cure cured me entirely."

The man who annually announces the death of the peach-crop in Kentucky has taken his pen in hand a little too early this year, but in this day of wireless telegraphy and horseless carriages it behooves even the pessimist to get a move on himself. Of course the peach-crop is killed, and is killed dead as a herring. Did anybody ever hear of a time when the peach-crop was not dead in the month of January?—Glasgow Times.

We are promised a time when nations shall learn of war no more and when men will realize what folly it is to cut each other's throats in order that a few thrifty and far-sighted schemers may grow rich at their expense. When they will refuse to follow the lead of reckless and ambitious politicians, who, in order to gain votes or hold on to power, would plunge the world into conflict. Men of common sense will not consent to be butchered simply to advance the political fortunes of so-called statesmen or to enrich contractors speculators and promoters. For war, except in defense of vital principles or for protection from invasion is the most wicked folly of which governments can be guilty. In the debates in the House of Representatives last week it was stated that the war in the Philippines had already cost the government \$300,000,000, and that it was now costing at the rate of \$12,000,000, a month. It is estimated that Great Britain has spent more than a billion dollars on the war with the Boers. This is not taking into consideration at all the loss of valuable lives and the destruction wrought. May the good Lord hasten a time when swords shall be beaten into plowshares.—Exchange.

A strange decision has just been made by a jury in Onawa, Iowa, Frank Crum a wealthy bachelor, and Miss Mary Christianson were engaged to be married last summer. Before the day set for the wedding arrived Crum died. Miss Christianson then sued the estate for breach of promise of marriage, taking no account of the intervention of Divine providence. She asked for \$7,000 and Wednesday the jury awarded her \$6,000. The estate was sued in the same manner as though damages had been sustained in a breach of any other contract. The possibility of fulfilling the obligation had no weight.

HOUSEWORK

Too much housework wrecks women's nerves. And the constant care of children, day and night, is often too trying for even a strong woman. A haggard face tells the story of the overworked housewife and mother. Deranged menses, leucorrhoea and falling of the womb result from overwork. Every housewife needs a remedy to regulate her menses and to keep her sensitive female organs in perfect condition.

WINE OF CARDUI

is doing this for thousands of American women to-day. It cured Mrs. Jones and that is why she writes this frank letter:

Glendale, Ky., Feb. 10, 1901.

I am so glad that your Wine of Cardui is helping me. I am feeling better than I have felt for years. I am doing my own work without any help, and I washed last week and was not one bit tired. That shows that the Wine is doing me good. I am getting fatter than I ever was before, and sleep good and eat hearty. Before I began taking Wine of Cardui, I used to have to lay down five or six times every day, but now I do not think of lying down through the day.
